## *What is U3A?*

An international movement which encourages retired and semi-retired people to take part in lifelong learning.

The **Third Age** is a time for mature age people to pursue creativity and fulfillment.

U3A is a community of active people united in the pursuit of stimulating activities, ideas and knowledge.

No educational qualifications are required or given. Class leaders and participants are U3A members and /or guest speakers.

U3A is a voluntary organisation in which all members participate in managing for the group's benefit.

Each U3A is autonomous but has a shared philosophy with other U3As. Programs are based on the interests, skills and resources of the individual community.
